

Why choose Anua Odor Control?

- ✓ **Wide-Ranging Treatment Ability:** The Anua system can treat a wide variety of odor-causing compounds and variability in concentrations.
- ✓ **Greatest Value:** Anua systems require no chemical additions and media is very long-lasting.
- ✓ **Highly Efficient:** No polishing stage or pH adjustment is necessary.
- ✓ **Very Simple and Inexpensive to Operate:** Systems require very little operator intervention or maintenance.
- ✓ **Small Footprint:** Many systems require a footprint of 16'x 8' or smaller.
- ✓ **It's Proven:** There are three dozen installations (and counting) throughout North America.

A cut-away view shows the simplicity of the system.

Air and water are the only chemicals needed for the removal of odors with Anua.

Seashells are the secret sauce of this technology. Odor control without the need for pH adjustment!

Special Features

- Seashell media does not need replacing for approximately 10 years and is inexpensive to replace
- System is environmentally-friendly and cost-effective
- Air, water and the Calcium in the seashells make a perfect environment for odor-consuming microorganisms
- Pre-packaged systems require little civil works
- Can easily handle corrosive compounds in the air
- Can run virtually unattended by operators

Anua Applications

- Sewage Lift Stations
- Wastewater Treatment Plants
- Sludge Processing Facilities
- Food Processing Operations
- Animal Rendering Operations
